

# Acol at BBO

## PAIRS LEAGUE – MAY 2006

### TRAVELLERS AND MOVIES

2 May 2006

For the first week or so I am creating links to the travellers and movies for each game in each match.

In the **List of Pairs**, click on the yellow date of a match. In the **League Table**, click on the IMPs score.

In both cases an Excel Spreadsheet will be downloaded to your page (you may need to click on “open”). That spreadsheet lists –

- All the games in a match (valid or not);
- Colour codes the games which have been ignored (because they are invalid or excessive) or penalised;
- The total IMPS for all the games, the deductions for ignored games and the penalty for invalid games. The net total is that used for the League Table;
- The BBO movies and travellers for each hand. Click on the blue link and the relevant information will appear (*the movie will be in a new window*).

If I get feed-back that this feature is not wanted, or I find that it takes too long to set up, I will have to abandon providing the links.

If your score for the League Table is not what you expected or reported, you can check with the spreadsheet and let me know of any errors.
